AI Management Policy with Objectives for Responsible AI Use

Owned by Susan Phillips

Last updated: Dec 09, 2024 • 12 people viewed • Legacy editor

1. Purpose

This policy establishes the principles, objectives, and guidelines governing the development, deployment, and use of Artificial Intelligence (AI) systems within BigCommerce. It aligns with ISO 42001 standards to ensure AI technologies are used responsibly, ethically, and in compliance with applicable laws and societal expectations.

BigCommerce is committed to fostering the responsible and ethical use of AI, ensuring alignment with organizational values and global best practices. This policy will be regularly updated to address emerging challenges, regulatory changes, and technological advancements.

2. Scope

This policy applies to all AI systems and related activities conducted by BigCommerce, including research, development, deployment, operation, monitoring, and maintenance. It covers all employees, contractors, and partners involved in AI initiatives.

3. Objectives for Responsible AI Use

BigCommerce's AI initiatives will be guided by the following objectives:

1. **Human-centric AI**:
   - Ensure AI systems augment human capabilities and enhance well-being.
   - Avoid deploying AI in ways that could harm individuals or communities.
2. **Fairness and Inclusivity**:
   - Develop AI systems that are unbiased and non-discriminatory, ensuring equitable outcomes for all users.
3. **Transparency and Explainability**:
   - Maintain transparency by documenting AI processes and decisions.
   - Provide clear, understandable explanations of AI decision-making.
4. **Privacy and Data Protection**:
   - Protect personal and sensitive data in compliance with applicable laws and organizational policies.
   - Minimize data usage to what is strictly necessary for AI functionality.
5. **Accountability**:
   - Assign clear responsibilities for AI system development, deployment, and impact management.
   - Address unintended consequences proactively and transparently.
6. **Continuous Improvement**:
   - Monitor, evaluate, and update AI systems regularly to ensure alignment with evolving best practices and organizational goals.

4 Governance Framework

BigCommerce has established a governance frameworkto oversee AI activities and ensure compliance with this policy.

1. **AI Ethics and Oversight**:
   - An AI Ethics Comm
   - Regular audits will
2. **Risk Management**:
   - Conduct risk-based AI impact assessments prior to development.
   - Identify, assess, and mitigate risks throughout the AI lifecycle.
3. **Policy Review and Updates**:
   - This policy will be reviewed annually or as needed based on feedback, audits, or changes in regulatory and technological landscapes.

5. Implementation Guidelines

- **Project Onboarding**:
  - All new AI projects must complete a comprehensive risk-based AI impact assessment.
  - Privacy impact assessments will be mandatory for AI systems that process personal data.
- **Development and Design**:
  - AI systems will be designed with fairness, transparency, and security as primary objectives.
  - Implement explainability features to ensure decision-making clarity.
- **Training and Awareness**:
  - Provide ongoing training to employees on responsible AI use, ethical principles, and relevant legal requirements.
- **Reporting and Feedback**:
  - Establish channels for reporting concerns related to AI systems.
  - Develop a feedback loop for continuous improvement.
